So consider the return window when you're shopping for a phone, and once you complete the sale, make a note of the final day when you're shopping for a phone buyback companies to get you the most cash for your old phone. So consider the return window when you're shopping for a phone buyback companies to get you the most cash for your old phone. vour phone through a private seller on sites like eBay or Swappa, you need to determine if the person you're about to send hundreds of dollars to can be trusted. Your wallet needs some relief from these escalating phone prices, and used smartphones may be just the way to find it.(Image credit: Tom's Guide)Buying a good used phone is a great way to save some cash while upgrading to a better device. If you want to sell a phone or tablet then SellCell is the only site you need! How Do I Sell My Phone? The latest handsets continue to get better and better but so does the cost with the prices for new phones increasing all the time. Pay particular attention to the battery test or status that will display the number of cycles. In fact, since SellCell was started it has helped millions of phones and electronic devices get recycled in an environmentally friendly way It really is Win-Win. For Android phones, the only manufacturer you can depend on for consistent software updates is Google, with its Nexus and Pixel devices. It should be pretty easy to keep your OS up-to-date on a used iPhone. You've decided to take the plunge and buy that shiny new latest flagship smartphone you've been dreaming about. SellCell's unique proprietary technology instantly shows how much your phone is worth. You can check by either contacting your carrier with your phone's IMEI number (typically found on the nano-SIM slot or in the About This Device section of your phone's Settings app) or by trying to activate the smartphone on your account. Once you've passed that test, do a basic physical check of the phone to ensure that there aren't any surprises. Prices on the Samsung Galaxy S8 start at \$750 — around \$100 more than what the Galaxy S7 cost when it launched in 2016. It's worth considering that superficial damage can mean a lower price, and with a case covering the phone, you might not notice any cosmetic flaws in day-to-day use. The items included with the smartphone are not only a bonus; they can also give you valuable information about the seller. Look over the phone, and move your hands around it, applying slight pressure to verify that there isn't any separation in the case or screen. pre-owned vs. It's so easy, they'll discount your new phone by the trade in price so you have less to pay upfront. There is a big and growing demand globally for used cell phones. Hey these things aren't cheap so you're obviously doing the sensible thing of selling your old phone to help pay for the upgrade. Whether it is just slightly faulty or even if it is completely smashed, cracked or won't turn on there will be a buyer willing to pay for it. When you recycle an old cell phone or other electronic device through SellCell you can be assured it will be processed in an environmentally friendly way. The cell phone buyer you sell it to will either re-sell it on to someone looking for a used phone or if it has no value they will dismantle it and dispose of all the components in an environmentally friendly method. And some rumors suggest that Apple's iPhone 8 might cost as much as a MacBook. Do You Buy Broken Phones? If you are a business looking to sell larger batches of phones or other used electronics then one of our account managers will be able to help. That could start to cause separation in the body of the phone passes these tests, it is really just a question of what kinds of minor scratches or abrasions you are willing to tolerate, and whether you are planning to use a case. While new features may be optional, the monthly security updates should be priorities, and you should make sure that the manufacturer of the device you're buying doesn't fall more than a month or two behind with these updates. Software updates are less of a concern for iPhones, as Apple typically supports its old hardware. The cell phone buyers on SellCell buy phones and other mobile devices in any condition so yes you can sell broken phones here. When you trade in your old phone on SellCell the majority of devices will be re-sold to other countries all around the world Are There Environmental Benefits to Cell Phone Recycling? When a smartphone battery pushes beyond 500 cycles, it is on borrowed time and will have lost fairly significant capacity. At best, the site they are selling it on may offer some guarantees that the device meets the description and photos provided. MORE: Best Cheap Phones for Less Than \$200Certified preowned devices offer a little more reassurance to the buyer, in that they underwent some testing to verify that they undergo software or hardware repair to return them to like-new functionality. Simply enter the make and model of your device in the search box above. The easy way to do this is to buy directly from your carrier; most offer certified preowned and/or refurbished devices that will be guaranteed to work on that carrier. refurbishedFirst, you need to know exactly what you're buying, as different terms can describe various types of used phones. Any chips or cracks are an immediate deal breaker, as replacing a screen is costly (\$100 and up) and can indicate a device has been dropped repeatedly. (Credit: Sam Rutherford/Tom's Guide))While the dates for specific phone releases shift a little each year, the smartphone calendar is pretty set. It's so easy to sell your phone with SellCell. Search for your device, then under "Condition" select "Broken / Faulty". You'll find refurbished offerings at retailers such as Best Buy, Amazon and Walmart. You're just going through the process of buying your new phone when your network carrier offers you a trade in price for your old phone. And unfortunately, you're usually basing that decision on a fairly limited amount of information. Bay and Swappa provide some guidance, displaying how long the seller has been a member of the site, how many transactions they've completed, and how they've been rated by other buyers and sellers who've dealt with them.6. Note the phone's overall conditionThe phone's screen should be your primary concern when you're examining a used phone. Still, exercise some caution if you're looking at an iPhone that's more than a couple of years old. You can generally get a lot more cash for your old phone by shopping around and this doesn't have to be a hassle as you can simply use SellCell! SellCell compares prices from all the top cell phone buyers in the US in seconds to get you the best deal. There's always some variability in used smartphone pricing, but you should be able to narrow it down by looking at a few sites, like Swappa, Glyde, eBay (search sold listings only) and Amazon. As a result, the device should come with some kind of limited warranty. E-Waste can be a big problem if electronic goods are not disposed of properly because the materials inside them can be damaging to the environment. In fact, we're so confident that if you find a higher price anywhere else, we'll pay you double the difference!! There really is no need to go anywhere else to sell a phone because with SellCell you are always guaranteed the most cash every time!! What is my phone worth? By doing this you can generally get a lot more money for your old phone than the trade in prices offered by the carriers so it is worth doing Who Buys Used Cell Phones? Find out your phone value today and see how much cash you can get for your device is also more important than it once was, as many Android phones support fast charging that will work only with compatible chargers. While the hardware on your smartphone remains the same as the day it was first sold, the software can — and should — continue to advance. You can run a series of checks here that will verify that the hardware and software on your phone are in good working order. This filters the results to show who pays the most for your device if it is broken. BUT, be warned, this might come at a cost. Both consumers and businesses go on to SellCell to sell used phones. If you search online for "service codes" and the manufacturer of your smartphone, you will find a series of numbers and symbols to enter in your dialer to open a diagnostic mode. At present, most Android devices run a version of the operating system that is a generation or two removed from Android Nougat. Obviously if your device is broken you won't get full value for it, and the more damage the less you will get for it, but it is still worth selling How do you sell a broken phone on SellCell? Fortunately you've come to the right place! SellCell is the best place to sell phones, tablets and other mobile devices.
